- Describe how the district will coordinate and integrate Title I services with other educational services at the LEA or school level -- such as Even Start, Head Start, and other preschool programs, including transition plans to elementary schools; services for LEP children, children with disabilities, migrant children, neglected or delinquent youth, Native American children served under Title VII.A, homeless children, and immigrant children. Specify how these services will increase program effectiveness, eliminate duplication, and reduce fragmentation of the instructional program.

The Moberly School District will coordinate and integrate Title I Schoolwide supplemental ELA and mathematics for K-5 students, along with other supplemental services including: Title I Preschool, ECSE, children with disabilities, LEP, and migrant students. Title II A. funds will be used to reduce class sizes and Title VI. B funds to provide additional professional development to retain a highly qualified staff.

- Describe how migratory and former migratory children, who are eligible to receive services under Title I.A., are selected to receive such services on the same basis as other children receiving Title I.A. services.

The Moberly School has established procedures to identify migrant students upon enrollment and developed processes to provide Title I.A. services in a timely fashion to these students as we would for all students enrolled in our schoolwide programs.

-

a.) How will Title I services be delivered? (check all that apply)

- Targeted Assistance
- Schoolwide Program

b.) Briefly describe how the district will use Title I.A. funds to support student success. Include expected interventions, instructional programs/practices and professional development.

The Moberly School District has met with teachers, administrators, and parents to discuss needed services funded through Title I. A monies. Moberly School District uses STAR Reading and STAR Math assessment programs to progress monitor achievement of students in order to provide appropriate whole class instruction and targeted interventions for students.

English Language Arts support will be provided for all K-5 students, utilizing instructional materials from Foundations, Fountas and Pinnell Intervention (LLI), and Journeys. Writing instruction is supplemented through the use of the Journeys program. Title I funds will provide professional development in the effective implementation of these materials throughout the year to support teachers as they intervene with struggling readers.

The district will also provide supplemental mathematics support for all K-5 students through the use of Pearson Envisions differentiated instruction and intervention materials. Professional development will be provided throughout the year to teachers in the effective implementation of these materials.

School-wide support programs, PBS and PLC will also be supported through the use of Title I funds. All schoolwide buildings are effectively implementing these programs. The data gleaned from the implementation of PBS and PLC/CLT (district collaborative learning time) drives instruction in all classrooms.

c.) How will Title I funds support preschool programs? Describe services (e.g. ½ day/days per week/ages served):

Title funds are used to support the District's blended Title/ECSE Preschool program which serves children ages 3-5 and runs 4 days a week with the 5th day used for home visits. The day is split into 2, half-day sessions. Title funds pay for .5 FTE teacher and a .5 paraprofessional, along with some materials/supplies, professional development, parent involvement activities, and technology.

12. The LEA has identified effective parental involvement processes and is providing educational activities, including:

Parents are involved in various district and building level advisory groups. Parents are provided with frequent progress updates through our SIS Parent Portal and through Parent-Teacher conferences in the fall and spring. Friday Folders are used K-5 which include pertinent student information about district, building, and classroom activities. Various parent-student involvement activities are offered throughout the year to encourage parents to be active participants in their children's lives.
